## CASH RECEIPTS, JANUARY-AUGUST 1953

Farmers received about 17.7 billion dollars from marketings in the first 8 months of 1953, 6 percent less than a year ago. Average prices were down about 10 percent but the volume of marketings was a little larger. Receipts from livestock and products were 11.0 billion dollars, down 7 percent from the corresponding period in 1952. A sharp drop in average prices of cattle held receipts from meat animals 13 percent below last year. Dairy receipts were 5 percent lower, with marketings of fluid milk up slightly and average prices down 8 percent. Receipts from poultry and eggs, on the other hand, were 11 percent larger than a year ago mostly because of higher average prices.

Crop receipts from January through August were 6.7 billion dollars, 4 percent below last year, largely because of price declines. Receipts from wheat, cotton, truck crops, and potatoes were down.

### Cash receipts in July

Total cash receipts in July were approximately 2.5 billion dollars, 15 percent above June but 8 percent less than in July 1952. Receipts from livestock and products in July were 1.4 billion dollars, slightly below June and 6 percent under July 1952. Crop receipts in July were about 1.1 billion dollars, up 52 percent from June because of seasonally larger marketings of wheat, cotton, fruit, and tobacco. However, they were down 11 percent from July of last year, due mostly to lower prices for wheat and corn.

Cash receipts in August

Farmers' cash receipts in August are tentatively estimated at 2.7 billion dollars, 8 percent more than in July but 7 percent under August 1952, largely because of lower prices. Receipts from livestock and products were about 1.5 billion dollars, up 7 percent from July but down slightly from a year ago. Receipts from cattle and calves, butterfat, and wholesale milk were below August 1952. However, receipts from hogs, chickens, and eggs were higher. Crop receipts in August are estimated at 1.2 billion dollars, 12 percent more than in July because of seasonally larger marketings, but 10 percent under August of last year, principally because of lower prices. Receipts from most of the principal crops were substantially larger than in July, including cotton, tobacco and vegetables. Compared with August of 1952, however, receipts from nearly all major crops were down.

REVISED ESTIMATES OF CASH RECEIPTS AND  
HOME CONSUMPTION, 1951 AND 1952

Total cash receipts from farm marketings in 1951 are now estimated at 32.8 billion dollars, less than 1 percent above the previous estimate for 1951 published a year ago. Most of the change is in crop receipts, now revised to 13.2 billion dollars, and showing an upward revision of about 1 percent. Increases of about 5 percent in the estimates for both wheat and truck crops account for most of the change. There were smaller upward revisions for barley, sorghum grain, hay, peanuts, and potatoes. The estimate for receipts from livestock and products was increased by only 42 million dollars, and still rounds to 19.6 billion dollars.

The estimate of total cash receipts from marketings in 1952 is now 32.4 billion dollars, down 2 percent from the preliminary estimate published in the December 1952-January 1953 issue of The Farm Income Situation. Crop receipts have been revised downward about 4 percent to 14.0 billion dollars, mostly because of substantial reductions in the estimates for wheat, corn, and cotton. The total for livestock and livestock products is reduced only slightly to 18.4 billion dollars.

The value of home-consumed farm products in 1951 was increased by 2 percent and now is 2.2 billion dollars. The value of livestock and livestock products used at home was raised nearly 3 percent, but the value of crops consumed in farm households was reduced slightly. For 1952 the estimate of the total value of farm products consumed in farm homes was reduced about 1 percent from the preliminary estimate published early this year.

Table 6.- Cash receipts from farming, by States, 1951

| State and region          | Farm marketings        |               |               | Government payments | Total      |
|---------------------------|------------------------|---------------|---------------|---------------------|------------|
